Work experience - 10 years

Nov 2021 - present

Element Human

DEVOPS ENGINEER - LONDON, ENGLAND

- Inherited the whole infrastructure, as the previous DevOps engineer had left
- Performed all sorts of overdue updates of Terraform, Kubernetes and other supporting tech with zero downtime
- Planned and started rewriting the backend from Python to Go
- Organised Go Dojos to familiarise the team with the language
- More details on https://loran.dev

| Terraform | Kubernetes | Docker | Go | Rust | PostgreSQL | REST | GraphQL | GCP | PubSub |

| Datadog | Gitlab CI | GitHub Actions |

Element Human tracks attention and emotion to help better understand human behaviour and reactions.

Nov 2020 - Nov 2021

Thunes

SOFTWARE ENGINEER - LONDON, UNITED KINGDOM

- Wrote an API Gateway for a greenfield project
- Wrote stable REST APIs to sit infront of archaic, SOAP-only banking systems
- Wrote a Go package to standardise http actions and responses for our team
- The rest is confidential

| Go | PostgreSQL | Kanban | REST | SOAP | AWS | Kubernetes / EKS | SNS, SQS |

Thunes is one of the companies working behind the instant-payment companies. One that actually moves money between countries and balances out accounts.

Sep 2019 - Nov 2020

Appear Here

SOFTWARE ENGINEER - LONDON, ENGLAND

- Improved website Apdex from 0.6 to 0.85
- Reduced CI runtime from 1.5h to 45min
- Stabilised CI builds from 30% to 90%
- More details on https://loran.dev

| Ruby on Rails | PostgreSQL | React | Jest | Cypress | Kanban | REST | GraphQL | AWS |
| Terraform | ECS | ECR | Kubernetes / EKS | Jenkins | Datadog |

Appear Here is the world's leading marketplace to rent retail space. Its mission is very simple - to create a world where anyone with an idea can find a space to make it happen.

Oct 2018 - Aug 2019

Gousto

SOFTWARE ENGINEER - LONDON, ENGLAND

- Planned and iteratively delivered migrations from legacy monolith to microservices
- Implemented messaging to decouple microservice
- Aligned squad on preventing circular messaging loops
- More details on https://loran.dev

| PHP | Laravel | Lumen | TDD | PHPUnit | Codeception | Python | MySQL | React | Jest |
| Cypress | Scrum | REST | CircleCI | AWS | ECS | SNS | SQS | Go |

Gousto is a recipe box company, delivering all ingredients in the exact amounts.

Education

2011 - 2014

## BSc (hons) Business Information Systems

CARDIFF METROPOLITAN UNIVERSITY

2013

Erasmus Programme

UNIVERSITY COLLEGE BIRMINGHAM

Companies I've worked with

References

> I work with many talented young professionals, and Loran is, without a doubt, a top notch candidate, and would excel at a high level when tested. Many times before, Loran has displayed excellent communication skills, motivation, self discipline, and being able to work in a team atmosphere.

Chris Fitzpatrick

OVERLOOKED VENTURES, PRESIDENT

> The communication skills of Mr. Mutafov impress with psychological depth and adaptability against the attitude of customers both in the presentation of a specific service, and in the process of its implementation.

Pepa Petrova

PROTEMA LTD, MANAGER

> We were pleased with his programming skills coupled with his organised working style. He's got very good communication skills both written and verbal.

Sonu Bubna

OWNED IT, CO-FOUNDER
